What Bright Roof Does

Bright Roof Power Systems is a Hyderabad-based rooftop solar company focused on apartment societies. We install, own, operate, and maintain rooftop solar systems. The society does not pay the installation cost upfront.

Who We Serve

- Lifts
- Pumps
- Common lighting
- Clubhouse
- STP
- Security and maintenance loads
- Other shared facilities

How The Process Works

Step	What happens
1. Bill review	Bright Roof reviews 12 months of electricity bills and tariff details.

2. Site survey	Rooftop, electrical room, meter location, and cable route are inspected.
3. Proposal	Bright Roof prepares a society-specific commercial and technical proposal.
4. Agreement	Final terms are documented in a Power Purchase Agreement.
5. Installation	Bright Roof coordinates installation, safety, and approvals.
6. Operation	Bright Roof monitors, maintains, cleans, and supports the system.
