

Mallapur - <10 Floor Solar Prospects

Low-rise apartment prospects with no obvious rooftop PV arrays in the satellite scan.

Recommended field route

Gulmohar Gardens -> Sri Tirumala Millennium -> Mayflower Platinum -> Mayflower Park -> Gulmohar Residency

<10 floors

Medium

Gulmohar Gardens

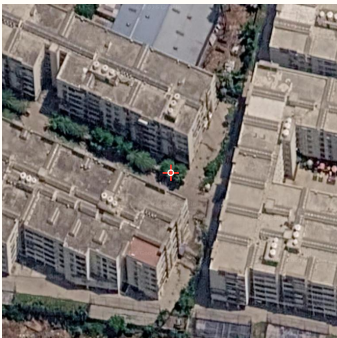

17.4443797, 78.5805605

~5-7 floors

Large multi-block society, unit count needs verification

One of the strongest Mallapur prospects: repeated low-rise blocks, broad roof surfaces, and no obvious rooftop PV field.

<10 floors

Medium

Sri Tirumala Millennium

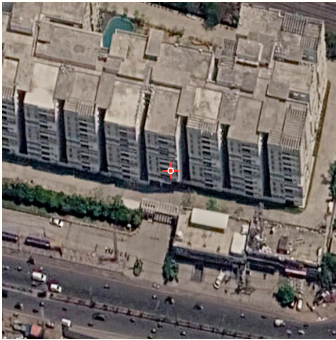

17.4370167, 78.5699369

~5-7 floors

Large multi-phase society, unit count needs phase confirmation

Low-rise blocks and no obvious PV panels in the current rooftop crop. Verify phase boundaries before proposal sizing.

<10 floors

Medium

Mayflower Platinum

17.4469699, 78.5740716

~6-8 floors

Medium-large society, visual estimate

Long low/mid-rise apartment block with open roof strips. No clear PV-grid signature visible in the scan.

<10 floors

Medium

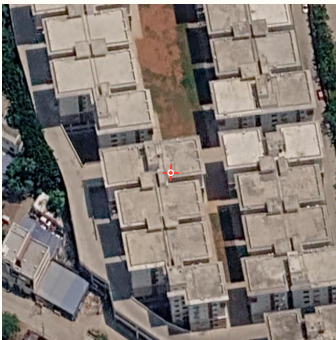

Mayflower Park Apartments

17.4432638, 78.5686462

~5-7 floors

Multi-block society, visual estimate

Good low-rise target with multiple apartment blocks and mostly open rooftops in the inspected frame.

<10 floors

Medium

Gulmohar Residency

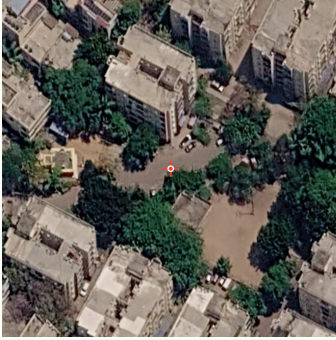

17.4507720, 78.5727710

~5-7 floors

Medium-large cluster, visual estimate

Large low-rise pattern with repeated roofs and no obvious PV panel grid. Good Mallapur field target.

<10 floors

Low-medium

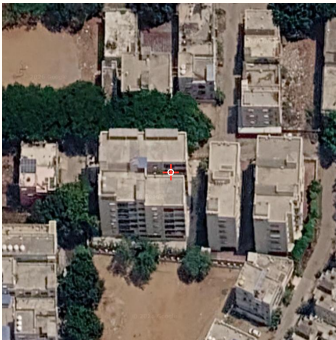

Janapriya Township

17.4417770, 78.5683431

~5-7 floors

Large older township, unit count needs confirmation

Potentially useful because of low-rise format and multiple blocks, but tree cover and campus boundaries require a manual route pass.

<10 floors

Low-medium

Aditya Pearl Apartment

17.4410599, 78.5756127

~5-7 floors

~40-80 units, visual estimate

Looks technically feasible but lower volume. Add to route only if nearby contacts are easy.
